

Safety Training Programs

On-Site Trainers

It is recommended that the courses listed below be provided by Risk Assessment Services (John Geitz and Jim Weber) or H.M.C., Inc. (David Roach) through our JIF-sponsored training program. This training is free to members and includes an on-site trainer.

We know these programs provide the highest level of life safety training and ensure compliance with State and Federal training mandates.

OSHA MANDATORY TRAINING

- Aerial Lift Safety
- Asbestos Awareness
- Confined Space Entry
- CPR/AED certification
- Forklift Safety
- Hazard Communication/Right to Know
- Laboratory Safety
- Lock-Out/Tag-Out Safety
- Personal Protective Equipment Safety
- Respiratory Protection Training
- Bloodborne Pathogens – While this training is not provided by the JIF, it is recommended that this course be provided by a qualified on-site professional trainer.

If you have any questions or need assistance, please contact the JIF Safety Coordinator.
